Guidelines

Medina County's On-the-Job Training (OJT) program offers employers a way to be partially reimbursed for hiring and training job seekers in permanent positions. Job seekers must be assessed for program eligibility by OMJ Center staff. The initial contract takes about one week to execute before an employee can begin working. After that, additional employees can be added with a simple training plan. OMJ Center staff will complete most of the paperwork and will help you with the rest!

- **On-the-Job Training** is available to all sector industries.
- **Training periods** average 3-6 months depending upon the position and the new employee's experience level. A training plan is created which cites the details of this period of time.
- **The minimum wage** for any position is \$13 per hour.
- **Employers** can be reimbursed for 50% of an employee's wages up to a maximum of \$10,000; a portion of the reimbursement is withheld until the employee is retained for 90 days post-training.
- **Employees** must be a direct hire. Individuals hired through staffing agencies are not eligible for the OJT program.
- **Reimbursement** requires a signed invoice and documentation demonstrating wages paid to the employee.
- **Employers** using OJT to train new hires must be willing to accept candidate referrals vetted by the OMJ Center Career Services staff.
